SUMMARY

I'm a passionate full-stack developer who enjoys building modern web applications and solving real problems with technology. I work mainly with JavaScript and modern tools like React, Next.js, Node.js, Prisma, and PostgreSQL to create fast, scalable, and user-friendly applications. I enjoy learning new technologies, improving my development skills, and building useful digital products. My goal is to grow as a developer while contributing to projects that make a real impact.

SKILLS

Languages	JavaScript
Tools/Frameworks	React, Next.js, Node.js, Express.js, Tailwind CSS, jQuery, Prisma, Mongoose
Databases	PostgreSQL, MySQL, MongoDB
Other Skills	Git & Github, Shopify, Liquid, Remix, Problem Solving

WORK EXPERIENCE

Frontend Developer

Arham Web Works (Surat)

Dec 2024 - Current

- Developed Shopify applications using JavaScript, Remix (React Router), Prisma, GraphQL, and PostgreSQL.
- Built and maintained custom Shopify theme sections using Liquid, HTML, CSS, and JavaScript.
- Integrated Shopify APIs using GraphQL to manage store data within apps.
- Designed responsive UI components for Shopify apps using Polaris Web Components.
- Implemented backend data handling and database queries using Prisma ORM with PostgreSQL.
- Debugged and optimized Shopify app features to improve performance and reliability.
- Collaborated with the development team using Git for version control and project collaboration.

Full Stack Developer Trainee

Angel Multimedia Institute (Surat)

Apr 2023 - Dec 2024

- Built full-stack web applications using JavaScript, React.js, Node.js, and Express.js.
- Created REST APIs and backend logic using Node.js.
- Designed and managed databases using MySQL and PostgreSQL.
- Implemented authentication systems and CRUD operations for web applications.
- Practiced debugging, testing, and improving application performance.

PROJECTS

1.DevToolBox : *devtoolbox.yashnandvana.in*

- Built DevToolBox, a web platform providing 150+ developer utilities
- such as JSON formatter, Base64 encoder, text tools, and developer utilities.

Other Projects : **2.**Check Project Health, **3.**CareerPath.ai, **4.**Personal Portfolio, **5.**TaskEra

EDUCATION
